

Topic: Words of Two Syllables Stressed on the Second Syllable

Meaning of Word Stress:

Word stress is the emphasis placed on one syllable in a word.

The stressed syllable is pronounced louder, longer, and clearer than the other syllable.

TWO-SYLLABLE WORDS

A two-syllable word is a word that has two beats or sounds when pronounced.

Examples:

ta-ble

be-gin

ho-tel

a-llow

for- get

STRESS ON THE SECOND SYLLABLE:

In some two-syllable words, the second syllable is stressed.

This means the second part of the word is pronounced more strongly.

We show stress using capital letters.

Examples of Two-Syllable Words Stressed on the Second Syllable

beGIN

reLAX

forGET

aRRIVE

hoTEL

corRECT

poLICE

guiTAR

HOW TO IDENTIFY STRESS ON THE SECOND SYLLABLE:

1. Pronounce the word slowly.
2. Listen for the syllable that sounds stronger.
3. If the second syllable is louder, it carries the stress.

IMPORTANCE OF CORRECT WORD STRESS

1. It helps improve clear pronunciation
2. It makes spoken English easier to understand
3. Wrong stress can change or confuse .
