

Structure – Regular and Irregular Verbs.

The simplest definition of a verb is that it is an action word; it tells what a noun or pronoun does in a sentence. (It indicate action, a doing or a state of being.)

Examples- sleep, dance, stop, talk etc.

There are two types of verbs namely; regular and irregular verbs.

REGULAR VERBS:- Thus; verbs are said to be regular if its past and past participle are formed by merely adding ed or d to the base or root form.

IRREGULAR VERBS:- These verbs do not have fixed form. Their past and past participle are formed in different ways.
