

## READING COMPREHENSION

### Passage: *The Importance of Reading*

Reading is one of the most important skills a student can develop. It helps learners to improve their vocabulary, spelling, and understanding of English. A student who reads regularly finds it easier to understand lessons taught in class and performs better in examinations.

Reading also exposes students to new ideas and cultures. Through books, newspapers, and magazines, learners gain knowledge about events happening around the world. This knowledge helps them to think critically and express their opinions clearly.

In addition, reading builds confidence. When students read often, they become familiar with different sentence structures and correct usage of words. This makes it easier for them to speak and write good English. Reading can also be enjoyable, especially when students choose books that interest them.

In conclusion, reading is not only for passing examinations but also for personal development. Every student should develop the habit of reading daily to become successful in school and life.

---

### Comprehension Questions

1. According to the passage, why is reading important to students?
2. Mention two ways reading helps students in school.
3. What does reading expose students to?
4. How does reading build confidence in students?
5. Suggest a suitable title for the passage.

---
