

Four-Syllable Words and Their Stress Patterns

1. Words Stressed on the 1st Syllable

The first syllable is pronounced more strongly.

Examples:

IN-di-vi-du-al

IN-gra-ti-tude

2. Words Stressed on the 2nd Syllable

The second syllable carries the stress.

Examples:

en-CUM-bran-ces

dis-CRI-mi-nate

to-PO-gra-phy

3. Words Stressed on the 3rd Syllable

The third syllable is stressed.

Examples:

dis-cri-MI-na-tion

e-du-CA-tion

lo-co-MO-tion

mo-du-LA-tion

te-le-VI-sion

Importance of Correct Stress

It helps correct pronunciation.

It makes speech clear and understandable.

Wrong stress can change meaning or cause misunderstanding.

Conclusion
